Mammoth Yellow. $0.20. $0.25.
These Beans are in first class condition, recorded, and packed in 25 lb. Bags. Absolutely no weed seed.

FARMGERM
THE STANDARD INOCULATION
That inoculation pays is now a matter of common knowledge, and it pays not only on lands that have not grown Legumes before, but on lands that have grown them long ago. Therefore the S. C. Commissioner of Agriculture gives us his 12th annual report.
From the results of the inoculation of various Legumes, the Commissioner is firmly of the opinion that it will pay all farmers inoculate their crops, even when they are successfully grown, because of the enormous increase in yields and the increased bacterial activity, and that no inoculant ever was so low in price that the result was not more than $0.05 per 100 lbs. of seed.

ALL INOCULATION IS NOT FARMGERM!
Because Farmgerm was the first culture or culture of the kind in the United States and has had the most experience and is the only one that can be inoculated in the field, it is the only one to write for in large lots. If you have your own formula you wish to use, some other one may suit you better.

DWARF ESSEX RAPE
Genuine English grown Rape, produced in Essex, England. A first stock of this rape we have had this year. Per lb. 25 c. 100 lbs. $25. Write for prices in large lots.

FUSION DEPARTMENT
FUSION LATE SEED CROW SOW.
Very Popular Seedler and Very Extensively Sold.
This sower is guaranteed to distribute seed perfectly evenly, and will not throw seed in an upward direction or against the operator, but down and evenly to the land. Sows clover, timothy, red or green grass, alfalfa, oats, rye, wheat, millet, turnip and other varieties of grain at about the rate of 50 sacks of barley per acre. It distributes the broadcast dust, land plaster and fertilizer to advantage. Clover seed is sown a width of 18 feet; timothy, 10 feet; alfalfa, 50 feet; barley, 25 feet; millet, 18 feet; oats, 18 feet. Thus, it will be seen that one operator can sow 60 to 85 acres per day, and yet be of the kind of seed. Price $5.00, post paid.

FUSION SEEDS
Cobblers and Roses—Grown this Spring from our selected Maine Seed. Per lb. $3.50. These are No. 5 seed much further in planting than the larger sized.

FUSION LAYO GRASS SEED
This is a mixture of different grasses and clover, and a continuous green lawn is the result. It makes, a very quick growing and the lawn will be even and fine and colorful. Our very best seeds are used. Perfect preparation of the land is the first step. Clovers must be rolled 5 or 6 times and they are sure it is well rolled, and even then some cows have to go over it a few times.
